Mr. Jerome Fokas
Select Basement Waterproofing

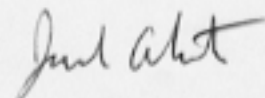

Dear Jerome,

My "Thank you" for the work you did on my basement was deliberately delayed in order to feel totally satisfied with what you've done. What you did is outstanding! You fixed a basement that was in terrible condition: flooding, very poor condition of the walls' waterproofing, floor gutters stopped up with who-knows-what, and probably things you noticed and I didn't. You repaired this totally in one preschedule day. Our basement was repaired about four or five months ago, and it's been flawless - after much stormy weather.

You also added a sump that has tirelessly dealt with that strong flow of water beneath my basement. I feel confident that my discomfort with my basement is completely gone.

To anybody who needs their basement waterproofed: Jerome is the guy to pick for this.

Sincerely,

Jack Akersten
Old Bridge
